

Are you 19 to 64
years old?

Do you smoke
cigarettes
or have asthma?

If so, then NOW
is the time to get
immunized against
pneumococcal
disease.

Immunize for Life

Pneumococcal disease can lead to serious infections of the lungs (pneumonia), blood (bacteremia) and the covering of the brain (meningitis). About 1 out of every 20 people who get pneumococcal pneumonia dies from it, as do about 2 people out of 10 who get bacteremia and 3 people out of 10 who get meningitis.

*Call your health care
provider or the
Anne Arundel County
Department of Health
to find out how to get a
pneumococcal shot.*
