

What are the Symptoms of Breast Cancer?

- New lump and/or pain in the breast or underarm.
- Thickening or swelling of part of the breast.
- Irritation or dimpling of breast skin.
- Redness or flaky skin in the nipple area or the breast.
- Pulling in of the nipple or pain in the nipple area.
- Nipple discharge other than breast milk, including blood.
- Any change in the size or the shape of the breast.

Screening is the best way to detect breast cancer. If you have any signs that worry you, be sure to see your doctor right away.
