

# Surround Your Baby With Protection!

**Mothers, Fathers, Grandparents and Other  
Family Members and Day Care Providers:**

## **Get Vaccinated With Tdap Vaccine!**

Protecting yourself against tetanus (lockjaw), diphtheria and pertussis (whooping cough) helps to protect the baby.

## **Tdap Vaccine for People Ages 11-64 in Close Contact with a Baby!**

Call an area health center for an appointment for the Tdap vaccine.

**Parole Health Center**  
1950 Drew Street  
Annapolis, MD 21401  
**410-222-7247**
